Team Game - DeFi Trading

Introduction

Each team will be given 100 EXT and 0.01 ETH (for gas)
The winning team will be the one with the highest EXT balance at the course.

Initial Steps

1. Put your team name and address on Slido

2. Set up a project in hardhat or truffle

3. As a team work out the approach you will take

4. Check that you can connect to the test network from metamask and your project

5. Try some functions on the ERC20 contracts, e.g. get your balance, get the token symbol
